## **DETAILED ACTION**

### ***Drawings***

The drawings were received on 02/18/20010. These drawings are accepted.

### ***Status of Claims***

Applicant's cancellation of claims 1, 2, 4, and 7 -13 in the reply filed on 02/18/2010 is acknowledged.

Applicant's amendment of claims 1, 5, and 6 in the reply filed on 02/18/2010 is acknowledged. Claims 2, 5, and 6 are under consideration in this Office Action.

### ***Allowable Subject Matter***

Claims 2, 5, and 6 are allowed.

The following is an examiner's statement of reasons for allowance:

In re Claim 5, Karasawa discloses all limitations of claim 5 except for “...a measurement in a pad pitch direction of the shape compatible with only connection with the probe is SMALLER than a measurement in a pad pitch direction of the shape compatible with only assembly”. Moreover, Karasawa teaches that a measurement (between 11A and 12A) in a pad pitch direction of the shape compatible with only connection with the probe is LARGER than a measurement (between 11 and 12) in a pad pitch direction of the shape compatible with only assembly (Drawing 1). The claimed device differs from prior art devices on this point and there is no evidence it would have been obvious to make this change.

In re Claim 6, Karasawa discloses all limitations of claim 6 except for that “...the dual use pads and the probing test pads are arranged alternately ...” The claimed device differs from prior art devices on this point and there is no evidence it would have been obvious to make this change.
